

# How to kill OSM?

## Above all, change nothing

Constructive and uncompromising critique of OSM's structural problems from a longtime contributor's point-of-view

Become the only  
GIS platform

?

**Current foundation vision**

# Vision proposal

By 2032, become the free, open, collaborative and universal cartographic platform for

1. crowdsourcing
  2. data consumption
- all over the world.

# Vision proposal

By 2032, become the free, open, collaborative and **universal** cartographic platform for

1. **crowdsourcing**
  2. **data consumption**
- all over the world.

# Narcissus

# Goals?

- Address crowd-sourcing & data consumption markets
- Recruitment & loyalty
- UX
- Diversity

# Goals?

- Chapters development
- Training
- Communication / lobbying
- Catch-up the technical debt
- Better collaboration with public & private entities
- Data reusability

# Tag management

**phone VS contact:phone controversy**

“We want OSM data to be used as widely as possible.”

OpenStreetMap mission statement

# Data reusability

## Managing tags

- JOSM developers:
- Unexperienced developer:

# Developer needs

- Ready-to-use data
- Ready-to-use presets: data items
- API V1.0
- SDK
- Improved documentation/training

# Contributor needs

“How to double the number of contributors within 5 years?”

- easy-to-use mobile apps & tools to contribute
- support local community dynamic

# Renewed governance?

# To do

- Change mentality, break taboos
  - Accelerate
  - Find new sustainable & diversified source of revenue
- List problems to solve, prioritize
- Decide who should solve them
- Build together a strategic plan for 1/5/10 years
- Distribute

**First step: build the vision together**

# New problems, old solutions
